

About ICN

For over 40 years, ICN has been a driving force in connecting small to medium enterprises (SMEs) to major projects in Australia.

ICN has been instrumental in identifying the most suitable suppliers and service providers for thousands of projects across Australia and New Zealand.

Every day we work with local suppliers and project managers to streamline the procurement process, saving valuable time and money. ICN has played a pivotal role in preserving opportunities that might have gone overseas.

How we can help

Your project page remains active for the life of the project, and suppliers can browse and register interest all in once place.

Clearly define the scope of your project with work packages so suppliers can easily check their capability against the scope of work in each package.

Maximise the exposure of your project, with automatic notifications sent to all registered companies every time you list a new package.

OWNERS**

"Anything worth
having takes time."

Gateway by ICN

Save time and money with Gateway by ICN and easily promote upcoming procurement and contracting opportunities to local suppliers. Think of it as your essential connection to the best local suppliers, whatever your industry.

Combined with the supply chain expertise of our Australia-wide Industry Specialists, you can attract local content while stimulating and fostering an open and competitive marketplace.

"ICN helps you clearly define the scope of your project with work packages so suppliers and contractors can easily check their capability against the scope of work in each package."

Jamie Porrovecchio
Pre-Contracts Manager, Sitzler
